

**BRIGHT
FUTURES**

Partners for strong families and
quality early childhood experiences

Triad Bright Futures is the early childhood local coordinating organization (LCO) for Jefferson, Gilpin and Clear Creek Counties. Our mission is to convene stakeholders and align strategies and resources across sectors to implement the Bright Futures Roadmap and Universal Preschool in our region.

Coordinate partners to implement the four cornerstones of the Roadmap.

1. A variety of high-quality early care and education options for families
2. Support for families through an array of home visitation services
3. Access for programs and providers to mental health consultation
4. A robust screening, assessment, and referral system

Support Universal Preschool by helping providers, growing seat capacity, and increasing access for families.

Provide information and resources for families, including:

- Connections to parenting support and home visiting
- Tips to promote learning, birth through age 8
- Information about child development
